Contents Volume 69, 2003

Research papers

Geological and geomorphological precursors of the Chiu-fen-erh-shan landslide triggered by the Chi-chi earthquake in central Taiwan
W.-N. Wang, M. Chigira and T. Furuya 1

Characteristics of the displacement of a landslide with shallow sliding surface in a heavy snow district of Japan
S. Matsuura, S. Asano, T. Okamoto and Y. Takeuchi 15

Improving geological models using a combined ordinary–indicator kriging approach
O. Marinoni 37

Engineering geological characterization and comparison of predicted and measured deformations of a cavern in the Italian Alps
M. Sapigni, G. La Barbera and M. Ghirotti 47

Experimental study of lateral restraint effects on the potential heave of expansive soils
M.A. Al-Shamrani and A.W. Dhowian 63

Determining grain size distribution of the material composing landslide dams in the Northern Apennines: sampling and processing methods
N. Casagli, L. Ermini and G. Rosati 83

Parameterization of soil properties for a model of topographic controls on shallow landsliding: application to Rio de Janeiro
R.F. Guimarães, D.R. Montgomery, H.M. Greenberg, N.F. Fernandes, R.A. Trancoso Gomes and O.A. de Carvalho Júnior 99

Pore-pressure generation and movement of rainfall-induced landslides: effects of grain size and fine-particle content
G. Wang and K. Sassa 109

Seismic hazard map of Turkey using the deterministic approach
K. Kayabali and M. Akin 127

The application of predictive modeling techniques to landslides induced by earthquakes: the case study of the 26 September 1997 Umbria–Marche earthquake (Italy)
M. Carro, M. De Amicis, L. Luzi and S. Marzorati 139

Recovery of undisturbed highly fractured bench scale (30 cm diameter) drilled samples for laboratory investigation
C.I. McDermott, B. Sinclair and M. Sauter 161

Low-angle fracture zones in rapakivi granite at Hästholmen, southern Finland
O. Okko, K. Front and P. Anttila 171

Discussions

Comment on "Known and suggested Quaternary faulting in the midcontinent United States" by Russell L. Wheeler and Anthony Crone
H. Cetin 193

Reply to comment on evaluation of Meers fault, Oklahoma in "Known and suggested Quaternary faulting in the midcontinent United States" by Russell L. Wheeler and Anthony J. Crone
R.L. Wheeler and A.J. Crone 211

Erratum

Erratum to "7th Annual Report on the International Status of Engineering Geology—Year 2001: Encompassing hydrogeology, environmental geology and the applied geosciences" [Eng. Geol. 65 (2002) 47–79]
A.W. Hatheway and Y. Kanaori 217

Research papers

Borehole instability in high-porosity Berea sandstone and factors affecting dimensions and shape of fracture-like breakouts
B. Haimson and J. Kovacich 219

Modeling of tensile strength on moist granular earth material at low water content
T.-H. Kim and C. Hwang 233

Geotechnical and geoenvironmental characteristics of man-made underground structures in Cappadocia, Turkey
Ö. Aydan and R. Ulusay 245

SRC rock mass classification of tunnels under high tectonic stress excavated in weak rocks
L.I. González de Vallejo 273

Fractal characteristics of loess formation: evidence from laboratory experiments
P. Lu, I.F. Jefferson, M.S. Rosenbaum and I.J. Smalley 287

Effectiveness of horizontal drains for slope stability
H. Rahardjo, K.J. Hritzuk, E.C. Leong and R.B. Rezaur 295

Downslope volume enlargement of a debris slide–debris flow in the 1999 Hiroshima, Japan, rainstorm
G. Wang, K. Sassa and H. Fukuoka 309

Using multiple logistic regression and GIS technology to predict landslide hazard in northeast Kansas, USA
G.C. Ohlmacher and J.C. Davis 331

Digital model of corrected accumulated flow for peak discharge data acquisition and drainage system design
F.J. Fernández, R. Menéndez-Duarte and R. Valdés-Riera 345

Mass movements in tropical volcanic terrains: the case of Teziutlán (México)
L. Capra, J. Lugo-Hubp and L. Borselli 359

Stress measurements in soft rocks
R. Corthésy, M.H. Leite, D.E. Gill and B. Gaudin 381

Classification of artificial (man-made) ground
M.S. Rosenbaum, A.A. McMillan, J.H. Powell, A.H. Cooper, M.G. Culshaw and K.J. Northmore 399

Discussions

"How to obtain earthquake ground motions for engineering designs" by Ellis L. Krinitzsky; Elsevier Engineering Geology Paper, 65:1–16
G.L. Hempen 411

Reply
E.L. Krinitzsky 413

Opinion paper

A new and defective regulation in California for protecting critical buildings from earthquakes
L. Mualchin and E.L. Krinitzsky 415

Errata

Erratum to "7th annual report on the international status of engineering geology—year 2001. Encompassing hydrogeology, environmental geology and the applied geosciences" [Eng. Geol. 65 (2002) 47–49]
A.W. Hatheway 421

Erratum to 'Geological features and landslide mechanisms of an unstable coastal slope (Petacciato, Italy)' [Eng. Geol. 67 (2003) 255–207]
F. Fiorillo 423
